School Safety Top Priority

Due to the recent acts of school violence and the increasing threats against neighboring school districts, there has been a heightened degree of concern and inquiry pertaining to school safety around the nation. Romulus Community Schools District’s number one priority is to ensure the safety of students and staff. The district continues to implement and review its emergency management plans on a regular basis. Each year, all schools are required to hold 10 emergency drills including lockdown drills. These drills are posted on the district’s website. RCS continues to collaborate with Romulus Police Department regarding best practices in responding to acts of school violence throughout the course of the year and the District’s School Resource Officers will provide additional leadership in the area of school safety instituting the ALICE training for our staff. Romulus Community Schools took a proactive measure in addressing and ensuring the safety of our students and staff. The district utilized the County Enhancement Millage in the fall of 2017 to updated all security cameras which monitors the interior and exterior of all facilities and can be accessed remotely as an additional safety measure. In addition, several phones at Central Office are equipped with a 911 notification system. If a 911 call is made from any phone in the district, central office administrators receive a notification alert and immediately responds to the notification providing extra support to the building administrators.

The City of Romulus utilizes a “Code Red” alert. Many individuals across the district have registered with the city to receive emergency “Code Red” alerts from the city. Back in February, the district responded to the city’s code red alert and all schools were placed on a lockdown. During lockdowns, the school will not permit anyone to enter or leave the building until the lockdown is lifted. When an emergency occurs in the district, parents will receive communication notification through the District’s Robo Call system, so it is very important that your contact information on file with the school district is current and up to date. This information should include phone (home/cell) numbers and email address.

During an emergency, I am requesting that you do not call the school or the district. Your phone call limits the district’s ability to send and receive any necessary emergency messages and communication.

If you would like to receive the CITY’s alerts copy the link and complete the information: https://public.coderedweb.com/cne/en-US/2EF236C329EE.

We encourage parents, students and staff to report tips, safety concerns or potentially dangerous behavior to administration to help keep our school and our community safe. I cannot stress enough, if you see or hear something, SAY SOMETHING! We need everyone’s assistance in helping preserve the safest learning environment possible.

As always, if you have any questions or concerns, please do not hesitate to contact your child’s school principal or the Superintendent’s office.
MARCH IS READING MONTH

HALECREEK ELEMENTARY

Camp Read S'more is up and running at Halecreek Elementary during the month of March in celebration of Reading Month! Classes will visit our campground each week and take part in fun activities such as Spooky Story Day, Hot Cocoa and a Book Day, and S'mores Day.

BARTH ELEMENTARY

Barth Elementary School receiving a special shout out from Amy Lang, Fox 2 News Reporter. “Thank you to Barth Elementary School for inviting me to read to your super cool second graders - and interview with your Barth Bear News Crew! You are all AMAZING! Plus, I got to meet second grade class pet, guinea pig extraordinaire, Sherman Pip!!!”

HALECREEK ELEMENTARY

HALECREEK ELEMENTARY

HALECREEK ELEMENTARY

HALECREEK ELEMENTARY

ROMULUS ELEMENTARY

Romulus Elementary loves Reading! Students will be celebrating their love for books all month long. Students are reading with flashlights on Fridays, playing BINGO for BOOKS, reading with special buddies and rocking while reading. Students also enjoyed a special lunch for achieving their Accelerated Reader goals.

WICK ELEMENTARY - ROMULUS ROTARY GIVES DICTIONARIES TO ALL 3RD GRADERS

To kick off March Reading Month, The Romulus Rotarians stopped by Wick and Romulus Elementary Schools to deliver dictionaries to their third grade classes! This has been a yearly mission for the Rotarians to provide dictionaries to every third grader in Romulus for the past 15 years. Proud supporter of our Kids.

Romulus.net
17 Minute Protest

Approximately 200 students at Romulus Middle School participated in the 17-Minute Nationwide Protest on March 14, 2018. We had the theme of “We Dare to Care”. Our peaceful protest started with 17 seconds of silence followed by a discussion of the meaning of the day and finally what students could do after the protest to keep the work moving forward. These discussions were led by our counselors. The entire staff moved into action when it became apparent our students wanted to participate. At the end of the 17-minutes, we chanted “We Dare to Care” and students took a form letter to be sent to the survivors of the Florida shootings. These letters will be sent by the school. It was a proud day to be a Bulldog.

Detroit Symphony Orchestra-
Around the World in 45 minutes was the title of the Educational Series that the DSO put on last week. Romulus Middle School and Mr. Pethoud were able to take 40 band members to the performance on March 8th. The performance gave what was promised. Students were able to listen and watch professional musicians play songs from China, North Africa, Russia, Hungary, France, England, and finish up in the United States. It was a great experience for everyone and especially those students who have never seen an orchestra play before in person. Being that the performance was part of an educational series, the Conductor addressed the audience to teach about the songs and composers and also pointed out specific musical techniques in each song.

STATE ASSESSMENTS SCHEDULED FOR APRIL AND MAY

For Spring 2018, students in grades 3–8 will be taking M-STEP English language arts (ELA) and mathematics (3–8), and science and social studies (5 and 8).

Students in grade 9 will take the PSAT 8/9™ and students in grade 10 will take the PSAT 10™.

Grade 11 students will take the Michigan Merit Examination (MME), which has three required components: 1. SAT™ with Essay college entrance exam (which provides ELA and mathematics results) 2. ACT WorkKeys® workskills assessment 3. M-STEP science and social studies.
RHS AFTER-SCHOOL PROGRAM
March 2018

In December 2017, the Romulus High School Eagles reinstated their After-School Programming. What started with Math Tutoring for 11 students has quickly blossomed into a multi-subject enrichment program which now includes Math, English, Career Prep & Tech. The program also offers occasional Art and Phys Ed mini-sessions, snacks, games and prizes. The most valuable feature is that transportation is now available, making this program accessible to all RHS students. In three short months, the program has served over 70 students who have taken advantage of small group sessions, additional practice, online support programs, assignment make-ups, and quiz and test retakes. With this much success in such a short amount of time, we are excited about what the future holds for our students and families.  Go Eagles!!

ROMULUS EARLY COLLEGE EXPANDS TO OFFER CAREER TECH CERTIFICATION

Giving students and parents choices for post secondary education is the best way to describe the Early College program offered by Romulus Community Schools and it also saves thousands of dollars in tuition cost for college. In 2013, Robert McLachlan, Romulus School Board President, attended a conference where the Early College Program was presented and he wanted to provide Romulus children with this same opportunity. Five years later, Romulus has provided over 120 students with free college credits and over half of those students received their Associates Degree. Many of those same students have gone on to four year universities to finish their Bachelors degree. In the EC program, students enroll in high school courses at Romulus High School and leave to attend college courses at Wayne County Community College. Early College students must attend a bonus year of high school to receive their diploma as part of the program. Early College preparation begins in the tenth grade with an application process for students interested, but really students need to begin planning for their future while in Middle School.

Next year, Romulus Early College will be expanding to include pathways for career certifications in the trades; focused on Emergency Medical Technicians, Fire Fighters, Automotive, Welding/Plumbing and Cyber Security. All of these careers are in high demand and the door of opportunity has been open for Romulus students to secure a well-paying career with the proper training while in high school. For more information on the Early College Program email Jaime Nelson at nelson@romulus.k12.mi.us

March Madness Puts National Spotlight on Romulus

Congratulations to former Romulus Eagles Coach, Nate Oats and alumnus Wes Clark on their outstanding accomplishments in the NCAA Basketball tournament, in addition to Rhode Island’s E.C. Mathews. These individuals had outstanding career achievements at Romulus bringing home the State Basketball Championship Title! We wish them much success!

Romulus.net
Romulus Community Schools is accredited by the North Central Association Commission on Accreditation and School Improvement, AdvancED. Achieving this highly regarded and rigorous accreditation signifies Romulus Community Schools' commitment in pursuit of educational excellence. Each year the individual schools and the district perform a Comprehensive Needs Assessment to keep the District’s focus on its Vision. Throughout the school year, Building School Improvement Teams, SIT, meet to review data from staff, parent, and student surveys, achievement data, financial data, student support services data, school’s climate and culture data, parent involvement data, and data to support staffing needs to set the vision and direction for the individual schools and goals to achieve the vision. From the information obtained in each Schools’ Improvement Plans the District Improvement Team, MTSS, develops the District Improvement Plan. It is through this all-inclusive manner that the District’s Vision is created around the four key goals developed for Romulus Community Schools.

**District Goals**

**Goal 1**
**Student Achievement:**
By 2021-2022, 85% of all students in the district will score in the proficient or above categories on the State’s assessment in all core subject areas

**Goal 2**
**Post-Secondary College and Career Readiness:**
Romulus Community Schools will prepare all students for post-secondary education or career training

**Goal 3**
**Fiscal Responsibility:**
The Board of Education will ensure that the District operates in a fiscally responsible manner with a yearly positive fund budget balance to achieve a goal of 5% fund balance or greater

**Goal 4**
**Communication:**
Romulus Community Schools will improve communication both internally and externally

**From the Office of Grants and Curriculum:**

**Cultural Competence:**
Romulus Community Schools has embarked on this journey of Cultural Competence for the last three years. The District Equity Leadership Team (DELT) was created from volunteers to begin this work that will ultimately lead to more effective culturally responsive teaching. The work of the DELT is to value diversity; intentionally develop both the will and the skill to capitalize on our diverse backgrounds; create culturally competent staff, students, and parents; and develop culturally responsive instruction. As we continue to learn and grow, we will be expanding this work to schools' BELT (Building Equity Leadership Team). Please look for more detailed information in the months to come.

**Professional Learning to Strengthen Teaching and Learning**

Brenda Kaylor, a guru in creating a culture of learning, has provided meaningful professional learning to Central Office staff, Building Administrators, Elementary Team Leaders, Middle School Department Heads, and the entire RCS’ teaching staff regarding effective Professional Learning Communities.

Elementary classroom teachers continue their professional learning with job embedded coaching in the areas of math and ELA. Ms. Meeker, Middle School Teacher, provides Thinking Map training to the Middle School staff, and the high school math department has benefited from an instructional coach.
Board of Education Meets to Discuss District Reconfiguration

Romulus Community Schools District has been engaged over the past four years in a long-term planning initiative in addressing the declining budget, declining enrollment, and aging buildings. Now the board is looking at ways to provide the much-needed repairs to the facility and infrastructure with limited funds. Several improvements have occurred over this time span. The first was an Energy Bond initiative and project which provided seven million dollars of essential repairs and upgrades to the lighting, heating and cooling systems across the district. These upgrades were possible from the savings of energy consumption which are guaranteed to pay the Energy Bond debt and without an increase to the taxpayers.

The district has also contracted with Barton Malow to perform a facility assessment and building usage study and update. The Board of Education held one of many study sessions on March 19 with Jeff Atkins from Barton Malow in addressing the district’s most critical facility repairs, the district’s aging buildings, shifting student enrollment, and the utilization of schools to address the needs of today’s and tomorrow’s learners. This session focused on evaluating enrollment trends, building usage, and program enhancement. The board was presented with six possible scenarios of a district reconfiguration and facilities usage. Another meeting will be scheduled in late April as the district moves forward with the district’s reconfiguration. If you would like to be part of a study committee to review, analyze, and provide input into a plan for upgrading the district’s educational facilities, sinking fund millage, and improving the learning environment for students and teachers please contact the Superintendent’s Office at 734-532-1610.

Refunding Bonds

The Romulus Community Schools Board of Education and the Administration are pleased to announce the successful sale of its $16,945,000 2017 Refunding Bonds. The District sold the bonds in the capital markets in early November. The sale of the Bonds allowed the District to reduce interest expense on the accumulated balance due to the Michigan School Bond Qualification and Loan Program. The new fixed interest rate bonds carry a lower interest rate than the District was currently paying and locked at that low rate until the bonds are paid off in 2024. Prior to the sale of the bonds the District paying a variable rate on the loans. The bonds were sold at a federally taxable true interest cost of 2.72%. Romulus was fortunate to find a receptive bond market on the day of pricing and investors were eager to invest in Romulus, a strong indication that the Board and Administration are responsibly managing the District’s finances. We are pleased that the sale will result in taxpayers paying considerably lower interest expense than originally projected on the bond debt millage.

Teacher Contract

Romulus teachers have been working under their contract that expired since November 2017. The district is currently in negotiations with the Romulus Education Association in hopes of coming to a fair agreement that will not put the district back into a deficit. Our teachers are dedicated professionals that made major sacrifices and approved wage concessions back in 2013 as part of the District’s Deficit Elimination plan for the State. The district has been able to provide small wage improvements to all district bargaining units in the last two years and will continue.
The current fund balance for Romulus Community Schools is $3.6 million. This includes the Wayne County Education Enhancement Millage totaling $998,944.

The Romulus Board of Education has acknowledged that it is fiscally irresponsible to utilize temporary Enhancement Millage Funds to permanently increase salaries.

The Romulus Community Schools’ Sinking Fund has expired, resulting in an estimated $600,000 in lost revenue in the upcoming fiscal year. Without the renewal of the Sinking Fund Millage, any maintenance and emergency costs will have a negative impact on the District’s General Fund Balance.

In 2012/13 Romulus Community Schools became a deficit district, resulting in many employees losing their jobs while remaining employees agreed to wage concessions order to keep the district solvent. In an effort to prevent the district from once again falling into deficit, The Romulus Board of Education is determined to maintain a Fund Balance of at least 5.5%.

In 2016/17 the Romulus Community School District restored, to all bargaining units, a 2% salary increase and the Romulus Education Association/Teachers also received an additional 1 step salary increase.

The Romulus Community School District is committed to providing a high-quality education to our students while responsibly creating sustainable salaries for all employees.
MEMBERS OF THE ROMULUS HIGH SCHOOL BOYS AND GIRLS BASKETBALL TEAMS RECENTLY SERVED AS GUEST READERS FOR EACH CLASS AT WICK ELEMENTARY DURING READING MONTH. THE DAY IS ONE THAT WICK ELEMENTARY STUDENTS LOOK FORWARD TO EACH YEAR, AS THE STUDENT-ATHLETES SHARE A STORY WITH EACH CLASS. EACH READER THEN ANSWERS QUESTIONS ABOUT THEIR HIGH SCHOOL EXPERIENCES AND GIVES POINTERS ON THE IMPORTANCE OF SETTING HIGH GOALS / STRIVING FOR EXCELLENCE. Pictured with the teams are Wick students (left to right): Vondre, Landen, Brooklynn, Payton, Boys Head Coach Herb Buckley, and Wick Principal ShaVonna Johnson.

THE HIGH SCHOOL FCCLA STUDENTS
BRINGING HOME GOLD

Congratulations to Ms. Willerick and her FCCLA students. Together they earned 17 Gold Medals and 3 Silvers with 8 Teams advancing to Nationals. **Family, Career and Community Leaders of America** is a national Career and Technical Student Organization that provides personal growth, leadership development, and career preparation opportunities for students in Family and Consumer Sciences education.

**Summer Job Opportunity**

The 2018 MDOT Metro Region Summer YDMP Program is finally here... www.michigan.gov/mdot-ydmp

**Important Information That You Need to Know for the 2017 Program...**

- How Much? Starts at $10.50/hr
- When to Apply? Applications are open now!
- How to Apply? All applicants MUST apply online at our website: www.michigan.gov/mdot-ydmp. You will be able to click a link under the apply tab. High School Students will apply for Team Member 1 (Metro Region)
- Who Qualifies? Student applicants must be currently enrolled in high school, must possess a 2.5 G.P.A., and must be between the ages of 16 to 18 years old. These qualifying students will apply for the Team Member 1 position. Applicants applying for a leadership positions must be 18+ years old with a valid driver’s license. Available positions and pay rates are listed on the YDMP website.
- What do I need to apply? High School applicants must submit a copy of their transcripts or most recent grades showing that they have a 2.5 G.P.A., as well as attach a letter of recommendation from a teacher, counselor, or principal.

**Failure to submit proper documents when applying will result in the application being marked as incomplete. Incomplete applications will not be considered for employment.**

**Contact:** Lindsay Curtis | Metro Region Workforce Technician/Metro YDMP Program Director | email: curtisl7@michigan.gov

*We look forward to you applying and hopefully becoming a part of the 2018 YDMP program!*
The District has partnered with MIExcel, The Blueprint, and Grant Chandler as an opportunity for the Romulus Community Schools to create urgency and leverage systemic support for the dramatic improvement and sustainability of student and teacher performance. It is designed to create a stronger systemic focus on and support of high quality teaching and high levels of student learning. The Blueprint is grounded in the research of experts in reform, but takes their work on specific elements [created in isolation] and connects them to each other to create a powerful, systemic approach that will challenge the status quo, base the organization’s decisions on what is needed to support student learning for all students, and provides the support and guidance needed to realize and sustain dramatic improvement. The expertise of these individuals and organizations are central to the Blueprint. Romulus District Network Team is composed of Central Office Administration, Union Representation, ISD support, Teachers, Building Administration and an MIExcel Blueprint Leader. The past several months the District Network Team has been developing the District's Communication Driver and it will be rolled out in early April. Continue to look for more information to come about the Blueprint on the District’s website.
Romulus Community Schools’ Board of Education has approved Turfix Synthetic Sports Field Specialist to conduct temporary repairs at Romulus High School’s football and soccer field. The construction cost is approximately $12-thousand dollars, and is scheduled to begin in April, the work will take up to four days to complete. The funds will be allocated from the Wayne County Enhancement Millage that passed in 2016. Superintendent Marjie McAnally said she is excited that students will be able to participate in spring sports with no disruption. She added that athletics are vital in the overall development of our student athletes and that sports play a major role in our school community. The field is heavily utilized and will not only allow Romulus High School and Romulus Middle School sports to move forward in the short term, but will also allow the three teams from the Romulus Flyers youth football program to continue. Besides school use, the facility is used for various community events, the track is also open to the public for recreational use.

The athletic facility was closed due to a failed safety inspection, following the 2017-18 football season. The district attempted to pass a 10-year 3-mil sinking fund millage last November, which would have allocated funds to address long-term solutions. The sinking fund could have generated an estimated $2.3 million a year, and would have cost homeowners an average of $140 annually. In addition to upgrading the athletic complex to industry standards, renovations across the district would have been addressed with the sinking fund dollars. “There is a dire need to improve our parking lots, roofing, plumbing, doors, windows, fire suppression systems, and technology across the district. Although the ballot proposal fell short by 143 votes, I believe that our community understands the importance of a strong school district and that they will invest in Romulus Community Schools in an August election. Our main goal is to move Romulus Community Schools forward in order to serve our families for generations to come” said, Mark Edwards, Coordinator of School Relations.

Turfix proposed the best value to temporarily extend the life of the field, which was constructed in 1999, the repairs will ensure that it is safe and usable for up to two years. The company will conduct a GMAX test throughout the field, GMAX testing is fundamentally designed to warrant that a field is performing the way it should with respect to impact or shock absorption. A large portion of the repairs will include fixing a sunken area near the north end zone. The process will include cutting back the turf, filling it with a stone mix, leveling it out, and rolling it back before seaming it. Other repairs will include cleaning debris from the field, rejuvenating matted fibers, laying a rubber infill, and seaming any loose or additional tears in the turf.

Adult Education

Tamieka Gaines took the spotlight in Lansing at Family Speak on Feb 15th to explain how Adult Education has played an important role in her life. Senator Hopgood was impressed with Tameika's story and will pay tribute to her on March 26th at the Romulus Board of Education Meeting.

If you are interested in enrolling to receive your General Equivalency Diploma (GED) contact Mr. Todd Marlette, Director of Romulus’ Adult Education for more information tamarlatt@romulus.k12.mi.us

SYMPHONY BAND WIN HONORS

For the second time in three years the Romulus Eagles’ Symphony Band has earned an overall rating of a 1, at the Michigan School Band and Orchestra Association District-level festival. Scoring is evaluated on a scale from 1 to 5, by three performance judges and one sight reading judge. The Eagles received the highest overall rating at their site by scoring all ones in performance and a two in sight reading. “This is the first time we received straight ones in performance, our students are consistently progressing” said, Jessica Mills-Rais the Band and Choir Director for Romulus High School. The District Orchestra Festival is an opportunity for ensembles from member schools to perform a program of three pieces for judgement, one of which must be assigned from the MSBOA. Ensembles that earn an overall 1 rating is considered superior and qualify for the State Band & Orchestra Festival. The RHS Symphony Band will perform at the State Festival in early May. The basic structure of State Band & Orchestra Festival is the same as District, but the ensembles are held to a higher standard. Good Luck Eagles at the State festival!
What is Project SEARCH?

The Project SEARCH High School Transition Program is a school-to-work program that takes place entirely in the workplace. In September, Romulus Community Schools District will offer internships to recent graduates of the district’s special education program. The year-long internship program combines total workplace immersion with classroom instruction, career exploration, and hands-on training through worksite rotations at the hospital.

Where will the program take place?

Beaumont Hospital, Wayne is hosting the program within various departments. There will be Project SEARCH, Beaumont, and Romulus staff on-site to guide interns through the program. Individuals assisting the students includes hospital management, teachers, and skills trainers. Students will receive daily instruction and on-site job training.

Who is eligible to participate?

Students who are 18 years old or older, are on Individual Education Plan and a desire to work in the community can apply for internships. Transportation information is available as it is essential to the success of Project SEARCH.

What are the goals of the program?

The goal for each student participant is competitive employment in their home community. The program provides three unpaid internships to give marketable skills for entry-level jobs. The Project SEARCH model involves an extensive period of training and career exploration, innovative adaptations and long-term job coaching. On-site staff provides continuous feedback, supporting students with disabilities for students to be employed in nontraditional, complex and rewarding jobs.

Project Search is now accepting internship applications for employment! A school-to-work internship program for Romulus School District for students with special needs begins in September 2018 contact Dr. Floyd at drfloyd@romulus.k12.mi.us
